۳	<p>Read the passages and answer the questions.</p> <p>The language that is most difficult for a person to learn depends on their tongue and on how closely their native language is related to the one they are trying to learn. For example, while the Japanese language is one of the most difficult languages for Americans to learn, it is not for Chinese speakers at all. The reason Japanese is so hard for native English speakers is related to the complex writing systems of Japanese, which are completely different from the A-to-Z alphabet. Japanese has three different alphabets kanji, which is made up of about ۱۵,۰۰۰ characters, kata-kana that's used for emphasis, and hira-gana for spelling suffixes and grammar.</p> <p>۲۲. The most difficult language for all people is Japanese. a. True <input type="checkbox"/> b. False <input type="checkbox"/></p> <p>۲۳. The Chinese learn Japanese easier. a.
