14- متن زیر را بدقت بخوانید و به سوالات آن پاسخ کامل دهید . ( 2نمره )

Bacteria are important microbes . They are very small .They have only one cell. Bacteria can live in any area of the earth. They aren't bad; in fact you couldn't live without some bacteria!

Viruses are among the smallest microbes on earth, even smaller than bacteria. They are different from bacteria because they can not live on their own. Viruses need to be inside

A living cell to live and grow . They usually attack your body and make you sick!

1- How are bacteria different from viruses ?

2 – Where we can find bacteria ?

جمع بارم 20 نمره

Good luck
