Reading

متن زیر را به دقت بخوانید و به سوالات آن پاسخ دهید.

Persian zebra is a large animal related to the horse family. It is similar to a donkey but a little larger in size. It is an endangered animal. You can find it on the plains of Iran. Tooran is the natural home of the Persian zebra. It lives up to 40 years. Just few of these zebras are alive, about 500, because people are destroying their natural homes and changing **them** to roads and fields. So, they move to new places but they can't find enough food there. In some areas, cows and sheep destroy the plants on the plains and don't leave any food for the zebras; that's why some of them die. Wolves and leopards are the natural hunters of Persian zebra but most of them are hunted by people, not by these wild animals!!!

طبق متن به سوالات زیر پاسخ کامل دهید. (۲ نمره)
