Other elements include customs, values, behaviors, and artifacts. Culture is, therefore, a combination of thoughts, feelings, attitudes, and beliefs.</p> <p>With more than 190 countries and 7 billion people on earth, it is not hard to imagine that many cultures exist. No matter where you go around the world, you will face people, lifestyles and cultures that are different to what you have. People around the world have very different lives and ways of living. They have different beliefs and customs. So they usually live and behave according to what they believe to be right and wrong.</p> <p>Learning to respect other cultures is important for having new experiences and learning about the world. One of the first steps to learn about other cultures is to simply accept that many different cultures exist other than our own culture. One of the most important ways to learn to become respectful of other cultures is to spend some time reflecting on our own. Then it is important to understand something about other cultures.</p> <p>a. People around the world have different cultures. True False</p> <p>b.
