15	<p>B: Reading comprehension</p> <p>Machu picchu is the most famous place located in south America. Scientists found it one hundred years ago. The meaning of this place is old mountains. This city was an unusual place for important people. They came to this city to relax specially in rainy seasons. They thought that this place was nearer to sky. This place was made of stone and they didn't use any other materials to build " it ". Machu picchu had three special parts. A part was for living which had the most historical houses in the world. The other part was religious part for pilgrims who liked the holy places. People at that time thought that this place could protect their lives. Scientists are not sure about this part and people's religious activities. Holy houses in different parts show that both poor and rich people lived here. And a farming part which was really important for people living there because they were far from other cities and they had to prepare their own food. In the religious part there is a stone which has amazing information about planets and stars. Scientists think that walking in this place is a little dangerous because stones will move. Machu Picchu has just two seasons. Sometimes it is rainy and sometimes it is hot.
