One of the most important parts of the body is blood. More than half of the blood is plasma. This is a clear and yellow liquid. It carries red and white cells. The red blood cells carry oxygen round the body and collect carbon dioxide from body parts. The white blood cells defend our body against microbes.

27. It is clear and yellow liquid and carries white and red cells.

What is it?

28. What defend our body against microbes?
