A dictionary is a book which explains the meaning of words and expressions. You can find  
word easily because dictionaries put them in alphabetical order. The word “dictionary” comes  
from the Latin “dictio” (saying)

There are several types of dictionaries. Dictionaries which explain words and how they are  
used: dictionaries which translate words from one language to another;

Dictionaries of biography which tell about famous people; and technical dictionaries which  
explain the meanings of technical words. Dictionaries which explain what words mean and  
give a clear “definition” of them. A good dictionary also gives more information about words.  
For instance, It explains how they are pronounced.

Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are  
also dictionaries which translate words into other languages. Very often one volume translates  
both ways: for example, half of the book is from English to Persian and the other half from  
Persian to English.
