K. Read the following paragraph and then answer its questions. (۴)

An endangered language is a language that has very few speakers. These days, many languages are losing their native speakers. When a language dies, the knowledge and culture disappear with it. A lot of endangered languages are in Australia and South America. Some of them are in Asia and Africa. The number of live languages of the world is around 7000, and many of them may not exist in the future. Many researchers are now trying to protect endangered languages. This can save lots of information and cultural values of people all around the world.

1. ....Many researchers try to save lots of information and cultural values of people whose languages are in danger.                      True                      False  
2. ....The knowledge and culture will die by an endangered language.                      True                      False  
3. What is an endangered language?  
4. Why is it important to save dying languages?
