1	درک مطلب The human body is a real wonder . It is sometimes good to think about our body and how it works . our body is doing millions of jobs all the time . One of the most important parts of the body is blood . The heart pumps this red liquid around the body . This keeps us healthy and alive . More than half of blood is plasma . This is a clear and yellow liquid . It carries red and white cells . There are millions of red blood cells in one small drop of blood . They carry oxygen round the body and collect carbon dioxide from body parts . There are thousands of white cells in a drop of blood . They are bigger than red cells. They defend our body against microbes . This wonderful liquid is a great gift from Allah . we can thank Allah by keeping our body healthy . One way to do that is eating healthy food and doing daily exercises . Another way is to donate our blood to those who need it .	12
