| 5. a) protect | b) lose | c) visit | d) change |
| 6. a) destroy | b) save | c) put out | d) live |

ز

N. Read the following text and answer the questions.

Most people know that not getting enough sleep is unhealthy. But is it possible to get too much sleep? Most doctors and scientists seem to think so. In fact, too much sleep can make people feel even more tired than getting a normal night's sleep.

Doctors recommend that people get between seven to nine hours of sleep a night. If a person still feels tired after eight or nine hours of sleep, however, more sleep is not the answer.

4

In fact, sleeping more than nine hours a night may be a sign of a medical problem. When, people sleep too long, they might not get enough sunlight or exercise, and their bodies may tell them that they need more rest. This can make people's bodies weaker, and they may catch a cold or even get more serious diseases more easily.

Some scientific studies have shown that people who sleep more than nine hours a night are 50% more likely to get diabetes and more than 20% more likely to be fat. Too much sleep has also been linked to having more headaches, back pains, depression, and even heart disease.

ژ

⚙️ **Underline T if the answer is True or F if the answer is False. (1 point)**

1. If you sleep more than nine hours, you may have a medical problem. T / F
2. You may catch a cold more easily if you don't sleep enough. T / F

⚙️ **Choose the correct answer. (1 point)**

3. What is the passage mainly about?

- a) how to fall asleep quickly b) how to have a deep sleep
- c) getting too much sleep d) getting too little sleep

4. Some studies show that people who sleep too much are more likely to get diabetes

- a) less than 20% b) 20% c) 50 % d) more than 50%

⚙️ **Answer the following questions completely. (2 points)**

5. How much sleep is enough per night?

6. What may happen to people if they sleep too long?

Good Luck

دختران عزیزم موفق باشید.
