- 1-Ted didn't have enough money to fly to Boston. He took the train.

7-Read the following passage and answer the questions.3

Most people graduate from school and then get a job. Everyone wants a job that pays well. How much money can you make? Ask yourself these questions: What can I do? What skills do I have? Also ask yourself: How much education do I have? For most jobs ,the higher your education, the higher your earning power(the money you can make).For example ,in the United States ,high school graduates make about \$18,600 a year.

If you do not finish high school, you make only \$10,800 a year. You can make \$7,800 more each year by staying I high school! If you stay in school ,then you can make more money. Let's look at this example again. A person with a high school degree makes about \$18,600 a year. If that person goes to college and gets a bachelor's degree, he can make 42,000.With a master's degree, he can make about \$53,000.If the person gets a PhD, HE CAN MAKE ALMOST \$79,000 OR MORE A YEAR.

We can learn a very important thing from this information. If you want to work and make more money, get a good education.

1-The passage is mainly about..... .

- a-how education and payment are connected b-high-paying jobs
c-good schools d-jobs for high school students

2-According to the passage, earning power is the money you can..... .
