46. In athe brain receives more than one hundred million messages.

47. Does the brain receive messages from the same nervous system?

۱۷) متن زیر را بخوانید و به سوالات پاسخ دهید.

The human body is a real wonder. It is sometimes good to think about our body and how it works. Our body is doing millions of jobs all the time.

One of the most important parts of the body is blood. The heart pumps this red liquid around the body. This keeps us healthy and alive.

More than half of blood is plasma. This is a clear and yellow liquid. It carries red and white cells. There are millions of red blood cells in one small drop of blood. They carry oxygen round the body and collect carbon dioxide from body parts. There are thousands of white cells in a drop of blood. They are bigger than red cells. They defend our body against microbes.

گزینه صحیح را انتخاب کنید.

3

48. What color is plasma?

- a. red b. yellow c) white

49. How can we keep our body healthy?

- a. By eating fast foods
b. By doing daily exercise
c. By sleeping late

50. How many white blood cells are there in a drop of blood?

- a. hundreds b. thousands c) millions

51. There are only white cells in plasma. True false

52. Red cells are smaller than white cells. True false

53. The number of red cells is more than white cells. True false

With best wishes for you
