J : Reading comprehension (4)						
Before men knew how to make pa	aper they wrote on many different things like stone,					
wood and metal. Long ago in Egy	pt people learned to use sheets of papyrus ,a water					
plant, to make paper . This was r	more than 2000 years ago . The Chinese were the					
first people to make paper like the	e one we have today . Paper was not known outside					
China for about 500 years . Early	in the 17th century it was brought to Japan. From					
about 750 A.D, some other Asia	in countries began using paper .					
At first paper was made by hand one sheet at a time But in 1800 Nicolas Louis who						
worked in a paper factory invented a new machine to make paper . Today even with						
modern machines, paper is made by the same process that the Chinese used in the						
past. There are now more than 5000 different kinds of paper used for many different						
purposes in addition to writing						
38- What were some of the things	s used to write on before paper was invented?
