**L: passage: choose the best answer. (4points)**

Chess must be of oldest games in the world. An Arab traveler in India in the year 900 wrote that it had been played a long time before. Chess was probably invented in India, and it has been played everywhere from Japan to Europe since 1400. The name "chess" is interesting.

When one player is attacking the other's king, he says, in English, 'check'. When the king has been caught and cannot move anywhere, he says'. these words come from Persian. "Shah mate" means the is king is dead". That is, when the game is over and one player has won.

Such an old game has changed very slowly . The rules have not always been the same as they are now. For example, at one time the queen could only move one square at a time. Now this has happened.

Chess takes time and thought, but it is a game for all kinds of people.

34. Which of these is true according to the passage?  
a) chess is an old Indian traveling game.  
b) chess is the oldest game in the world.  
c) chess was played in Japan and and Europe before 1400.

**M: Read the following text and choose the correct answer. (4points)**

The size and shape of your ears show your character more than any other part of the face.

Other parts of the face change shapes as we get older, but ears do not change their shapes.

They only change in size. Reading people's character from their ears is a very old science.

In the past people thought that a person's ears with color were dangerous. They also

thought that the shape of the ears showed if a person was musical or not. Today, too many

people believe that the size and shape of the ears help you know if a person is musical. Ears

are all different, and each different thing has a meaning. Next time you look at a person,

see if his or her ears are large, medium-size, or small. Look at the lobes (نرمه گوش). Ears

that are always red mean that a person may get angry easily. Ears that are always cold and

nearly white color mean that a person has a nervous character.

38. When we grow up, \_\_\_\_\_.

- a. our ears will not change in size
- b. our ears will be the same size.
- c. our ears will get colder
- d. our ears will not change in shape.

39. If someone's ears are red, it means \_\_\_\_\_.

- a. he/she is a kind person
- b. he/she is very happy
- c. he/she may get angry easily
- d. he/she drinks a lot

40. If you look at someone's ears, the right way is to see \_\_\_\_\_.

- a. his face, ears and nose
- b. the size, color and shape
- c. his mouth, eyes and nose
- d. the hair, eyes and color

41. How can we find out a person has a nervous character through his/her ears?

- a. When they are cold
  - b. When they are medium-size
  - c. When they are not white color
  - d. When they are musical
