IV. Reading: Read the passage and answer the questions.

Education is the process by which people gain knowledge, habits and values. Education should help a person become a useful member of society. It should also help him live in a better life. The most common way to get an education is to attend school. But much education also takes place outside the classroom. Education involves both learning and teaching. Sometimes, people learn by teaching themselves. But they also learn with the help of other people such as parents or teachers. Parents are a child's first and perhaps most important teachers. But few parents have either time or the ability to teach their children every thing that they need to know. A modern society can not continue its life without education.

A) Answer these questions:

1- What is the most usual way to get an education?

2- Where does much education occur?

3 B) Choose the best choice:

3- In line 9 "they" refers to ----- .

a) parents b) teachers c) children d) people

4- According to the passage, most parents send their children to school because they-----.

- a) are too busy to teach them at home
- b) don't get much benefit from teaching
- c) want their children to learn in the society
- d) have to attend schools themselves

C) TRUE or FALSE ?

5- Education includes only teaching. TRUE FALSE

GOOD LUCK
