T AT	D 1.	$\alpha$ .
N.	Keading	Comprehension.

Culture is a system of shared beliefs that are common in a society. Often we think of food, music, and clothing and holidays that are common in a society as its culture, but these are only some of the elements. Other elements include customs, values, behaviors and artifacts.

With more than 190 countries and 7 billion people on earth, it is not hard to imagine that many cultures exist. People around the world have different lives and ways of living. They have different beliefs and customs. So they usually live and behave according to what they believe to be right or wrong.

4 =	XX71 · 1	•	1 .	C 1, 0
45	Which	one is not	an element	of culture?
