## **READING**

Read the following passages and answer the questions.

A) Dolphins are really one of the wonders of creation. They live in small groups. In the group, they can defend one another. They warm-blooded sea animals. Their different sizes are amazing. The largest dolphin is about 11 tons and the smallest one is around 90 pounds. These clever animals can hear about 10 times better than humans. They also have very good vision but their sense of smell is not so good. One more wonderful fact about them is that they have 100 teeth but they don't use them for eating. They get the fish and swallow them. There are a lot more to learn about this wonderful animal.

| 46. Dolphins have                              | the same sizes.           |                     | a) True | b) False   |  |  |  |  |  |  |
|--|---------------------------|---------------------|---------|------------|--|--|--|--|--|--|
| 47. Dolphin's visio                            | on is better than its sme | ell.                | a) True | b) False   |  |  |  |  |  |  |
| 48. The Underlined pronoun "they" refers to    |                           |                     |         |            |  |  |  |  |  |  |
| a) fish b) teeth c)                            |                           | c) dol <sub>j</sub> | phins   | d) humans  |  |  |  |  |  |  |
| 49. Dolphin's food is                          |                           |                     |         |            |  |  |  |  |  |  |
| a) the fish b) another dolphin                 |                           | c) human            |         | d) octopus |  |  |  |  |  |  |
| 50. How do the dolphins live?                  |                           |                     |         |            |  |  |  |  |  |  |
| 51. What is the wonderful fact about dolphins? |                           |                     |         |            |  |  |  |  |  |  |
|  |                           |                     |         |            |  |  |  |  |  |  |

Warm- blooded: بینایی sense of smell: حس بویایی swallow: قورت دادن

B) Mercury is the smallest planet in the solar system and the nearest one to the sun. It is also the fastest planet. It goes around the sun every 88 days. Mercury is like a small, rocky ball in space. It doesn't have any moons. There are no seas, rivers or lakes on it. So you can't live on Mercury.

- 52. What is Mercury like?
- 53. Can a human live on Mercury? Why?....

Be the change you wish to see in the world

Wish you the best
