Read the text and answer the questions.

People have not always used an alphabet or letter for their writing. Early man drew pictures on the walls of the caves in which he lived, and from the pictures we can learn much about human life before writing was invented. In a similar way children can express their ideas in drawings before they can write. The alphabets of various countries have changed through the ages. We find our present alphabet very useful, but it is not perfect.

۱۷. Our present alphabet goes back a long time ago. True False
