What can robots do? When will we have robots? Actually there are many different kinds of robots every where. These days we can make a lot of things with them. For example cars, motors, computers and many other things.

We even have robotics nurses. They take care of sick people in hospital or clinics.

Robots can keep our cities clean and safe. They can control traffic and help police officers, too.

Cars are becoming robots now. Many cars have GPS on them. A car with a GPS system can help you find your way or some day in the future, will drive itself. Maybe you will sleep or read while driving. Will it happen someday? We will understand in the future.

51. Can we use robots instead of nurse?
.....

52. How can drivers find their ways? - - - - -

These days we can make a lot of things with them.

53. These days means

(hopefully- recently- clearly)

54. them refers to

(robots - cars- things)

55. Robots are only at homes and schools. True False

56. The number of robots will become more in the future. True False

۲۴ جمع نمره

Good Luck
