Before the Internet, people usually played computer games at home, either alone or with a few friends. The Internet is now fast and cheap, and computer gaming is changing. With a computer connected to the Internet, people around the world can play their favorite games together.

There are many kinds of on-line computer games. Some are for playing sports, chess, and other traditional games. Others are "role playing" games, in which each player becomes a character in an on-line world. On-line computer gaming is a fast-growing business with a very exciting future. And it's a lot of fun!
