B. Read the passages and answer the questions.

Passage One

One easy way to protect wildlife is learning about endangered animals that live around you. Teach your friends and family about the wonderful birds, fish and plants that live near your home. In this way, **they** are going to be more careful about nature. You can also visit a national wildlife museum or park. These places give good information about how to protect endangered animals and their homes. You can do voluntary work in these places to help animals and their babies. Another thing you can do is protecting the natural home of the endangered animals. When you keep nature clean and safe, the animals will live longer. Protecting the trees of forests is also helpful. If you live in a village, you need to be very careful about the hunters who come to your village to hurt animals. Whenever you see these people, you need to call the police. These are simple works, but they will help nature a lot.

True / False?

- Hunters are very kind to animals. (Oa. True - Ob. False)
- In line 3 the word 'they' refers to 'birds fish and plants'. (Oa. True - Ob. False)

0.5

- The best **topic** for the above passage is
- Oa. visiting museums and parks Ob. simple ways to protect wildlife
- Oc. being careful about hunters Od. voluntary works for animals

0.5

Answer the following questions.

- What will happen when we keep nature clean and safe?

2

- Why is protecting the trees helpful for endangered animals?

Passage Two

Ouzel is a water bird. This very friendly little bird lives near mountain streams. It floats along the streams and suddenly sinks to the bottom. The bird also walks around and takes bits of food on the streambed. The strange bird has some special equipment that uses every bit of air from its body to sink down in the water, then when the light bird walks out, it takes in air again and floats off once more.

There is a question about this bird. "Who has given it the most important equipment to keep on living?" Some people think that the One God has done that. Some others believe that the bird has grown by some accidental development.
