More than half of the blood is plasma. This is a clear and yellow liquid. It carries red and white cells. There are millions of red blood cells in one small drop of blood. They carry oxygen round the body and collect carbon dioxide from body parts. There are a large number of white cells in a drop of blood. They are bigger than red cells. They defend our body against microbes.

Now fill the blanks .

The heart sends the 1..... around the body, which keeps us alive. 2..... is a clear liquid that carries red and white cells. 3..... blood cells carry oxygen round the body, and 4..... blood cells defend our body against microbes.
