Teachers are an **essential** part of our lives. They teach us much more than reading and writing. They teach us life lessons and help us discover who we are and how to succeed.

Teachers are an essential part of our lives. They teach us much more than reading and writing. They teach us life lessons and help us discover who we are and how to succeed. Teaching requires a lot of time, preparation, and effort. Outside of the class, teachers write lesson plans, create exams and grade tests. They also attend conference and training sessions to find tools and ways to help students succeed. Teachers need to make sure that they know all their students' names and they must learn them quickly. One way of having a productive class is learning students' names.

21. How do teachers help us?

22. What do teachers do outside of the class?

Suppose that you have a very small vocabulary. Also suppose that you don't know how to get the meanings of new words. When you come across an unfamiliar word, that word may stop your understanding of the passage. Your eyes pause too long on the word as you try to get its meaning. You go back and read the word again, try to get its meaning from the context. As a result, you read much more slowly than you should, and you find that the difficult word is a wall to your comprehension. Suppose that you know many words and you are skilled in finding the meanings of new words. Your eyes move quickly and you read rapidly. You comprehend what you are reading. If you have a good vocabulary, you are more interested in reading.
