a)small=quick            b)simple=strong            c)wonderful=probable            d)seek=search for		

## Reading

About fifty percent of the world's languages have fewer than 5000 speakers. In the beginning of the twenty-first century, 204 languages had fewer than 10 speakers and 344 languages had between 10 and 99 speakers. The 548 languages with fewer than 99 speakers make up nearly 8 percent of the world's languages. We call them 'endangered languages'. As the speakers of such languages grow old and die, their languages will die, too.

17. When a language has no speaker, it dies out. T                      F

18. Number 548 in the text refers to.....

- a) The number of languages with speakers fewer than 10
- b) The percent of endangered languages
- c) The number of languages with speakers fewer than 99
- d) The number of languages that had between 10 and 99 speakers

19. How many speakers do fifty percent of the world's languages have?

- a) fewer than 204
- b) fewer than 5000
- c) fewer than 99
- d) fewer than 344

20. The word "make up" in line 4 means:

- a) to form a thing, amount or number
- b) to be different from each other
- c) without taking any notice of
- d) a large group of people who live together
