- 2.5 A cup of () A glass of () A bag of () A price of () A slice of () A loaf of ()

Read the passage. Then answer the questions.

An endangered language is a language that has very few speakers. Nowadays, many languages are losing their native speakers. When a language dies, the knowledge and culture disappear with it. A lot of endangered languages are in Australia and South America. Some of them are in Asia and Africa. The number of live language of the world is around 7000, and many of them may not exist in the future. Many researchers are now trying to protect endangered language. This can save lots of information and cultural values of people all around the world.

True or False
